

Topical Ointment/Lotion Permission Form

We have combined permission for all of the different topical ointments, lotions, or sprays that your child may use during the next year. Please list the specific name for each item you authorize your child to use and check the corresponding box. We provide Neosporin in our first aid kits. Due to personal preferences and allergies, all other ointments, lotions, and sprays are to be provided by you either at the time they are needed or for the duration of the year. If we are not provided with any of these items, then we will not be able to apply them to your child until we receive them. If we find that your child has any reactions to anything listed below, we will wash it off immediately and inform you of the reaction. This form is updated annually in the spring and can be updated throughout the year upon request.

I hereby give C Street Child Development permission to use the following on my child,

(Child's full name) _____, when appropriate

- Diaper Rash Cream _____
- Sunscreen lotion/spray _____
- Sunburn relief spray/lotion/gel _____
- Hand Lotion _____
- First Aid Cream/Lotion/Spray _____
- Neosporin
